

CAN can!

At Cochlear, hearing is our passion. It's what drives us to keep pushing the boundaries of science to help more and more people connect with the world around them.

What's more, we need your help to spread the word about how Cochlear hearing solutions can change lives. How? By becoming a Cochlear Awareness Network volunteer. Together, we can make a huge difference.

If you're interested in helping others with their hearing journey through the Cochlear Awareness Network, contact us for a membership application form today.

Cochlear Awareness Network

You CAN help others hear again

Hear now. And always

Cochlear™

Cochlear™

Change a life today

Millions of people around the world who have a hearing loss, can be helped with advanced hearing solutions such as cochlear or bone conduction implants or electroacoustic stimulation. However, many of these people don't know about the solutions on offer, even though the solutions involve routine procedures. You know first-hand the enormous difference restored hearing ability has made to your life, or the life of your child, so imagine helping others share this same life-changing experience.

Introducing the Cochlear Awareness Network

The Cochlear Awareness Network (CAN) is made up of thousands of volunteers around the world who have either received a Cochlear hearing solution or are the parents of a recipient. And they all share something else in common - a passion for helping others to hear.

Harnessing this passion, CAN volunteers share their personal stories and raise awareness about how hearing loss solutions can change lives. As you know, receiving an implant can be exciting and exhilarating, but also filled with apprehension. No one understands the emotional ups and downs of the journey better than someone who has been through it previously - someone like you.

You CAN
change
a life
today

Hear now. And always

Cochlear™
