The award winning Cochlear™ Baha® 5 Sound Processor is the smallest, most advanced bone conduction sound processor from Cochlear. It is a Made for iPhone Hearing Device that supports direct audio streaming from an iPhone, iPad or iPod touch. The Baha 5 Sound Processor has been developed to meet the needs of patients with conductive loss, mixed loss and single-sided sensorineural deafness (SSD).

Powered by the Ardium™ Smart Wireless platform with the SmartSound® iQ signal processing technology and the new BCDrive™ transducer technology, the Baha 5 Sound Processor is designed to ensure that your patients will benefit from the best hearing experience across a variety of sound environments. The Baha 5 Sound Processor is based on Baha bone conduction technology and designed to work with the Cochlear Baha Attract System, the Cochlear Baha Connect System and the Cochlear Baha Softband.

Features

- Fully programmable, premium head-worn sound processor with Bluetooth® Smart technology
- Made for iPhone Hearing Device with support for direct audio and data streaming
- 2.4 GHz Wireless technology that connects to Cochlear Wireless Accessories
- BCDrive transducer technology
- 17 channel sound analysis with Wide-band Dynamic Range Compression and Natural Sound Resolution
- 4 user-defined programs with dedicated listening programs for music, outdoor and noisy environments
- Scene Classifier controlling:
  - Noise Manager
  - Active Balanced Directionality
  - Active Gain
- Position Compensation
- Control Sync for bilateral synchronization of program change and streaming
- Dual Track Feedback Manager
- Dedicated fitting parameters for mixed loss, conductive loss and SSD
- Patient optimized fitting with Baha Fitting Software (5.0 or later)
- Wireless fitting with Airlink
- Compatible with FM and digital wireless ALD systems by connecting a body worn receiver of the listening system to the line input of the Cochlear Wireless Mini Microphone.

Fitting range

The Baha 5 Sound Processor is suitable for individuals with bone conduction thresholds within the red area indicated in the fitting range. For further details, see the Candidate selection guide.

Wireless accessories

- Cochlear Baha Remote Control 2™
  Order no. 94791
- Cochlear Wireless Mini Microphone
  Order no. 94781
- Cochlear Wireless Phone Clip
  Order no. 94771
- Cochlear Wireless TV Streamer
  Order no. 94761

Apps

- Baha 5 Smart App
  www.Cochlear.com/US
  Compatible with iPhone, iPad and iPod touch.
- Baha Control App
  www.Cochlear.com/US
  Compatible with iPhone, iPad and iPod touch and Android smartphones.
- Requires Cochlear Wireless Phone Clip.
- Baha Support App
  www.Cochlear.com/US
  Compatible with iPhone, iPad and iPod touch and Android smartphones.

Ordering information

The Cochlear Baha 5 Sound Processor is delivered in a kit that includes the sound processor, abutment cover, batteries, cleaning kit, safety line and user manual. The Baha 5 Sound Processor also comes with a small test rod that allows wearers to ‘share their Baha experience’ with friends and family.

* The Cochlear Baha Connect System consists of a compatible Baha sound processor, abutment and implant. For details regarding compatibility visit www.cochlear.com.
** The Cochlear Baha Attract System consists of a compatible Baha sound processor, SP magnet, implant magnet and implant. For details regarding compatibility visit www.cochlear.com.
*** The Baha 5 Sound Processor is also compatible with the Cochlear Baha Remote Control (94765).

The Cochlear Baha 5 Sound Processor is compatible with iPhone 6 Plus, iPhone 6, iPhone 5S, iPhone 5C, iPhone 5, iPad Air 2, iPad Air, iPad (4th generation), iPad mini 3, iPad mini 2, iPad mini and iPod touch (5th generation) using iOS7 * or later.
